

Quiz 06 Review Session

COMP 210 / 2024 Summer Session I

Ajay Gandecha

Second-to-last
quiz!! 🎉

Quiz 06 Format

- 30 minutes at the start of class.
- *On paper* - bring a pencil!
- **Question Types:**
 - Multiple choice, T/F, select all that apply, fill in the blank, drawing trees

Exercise Check-In Question

- Similar format to the exercise question on the last quiz.
- Review $\mathbf{Ex09.} + \mathbf{Ex10?}$
- *Questions?*

On Quiz 06

- AVL Trees (Self-Balancing BSTs)
 - Invariants
 - Runtime
 - Inserting / Deleting (Rotations)

AVL Trees

$$\max(T_L) < r < \min(T_R)$$

* $+ |height(T_L) - height(T_R)| \leq 1$

* + After insertion and deletion, the above rule still applies.

AVL Trees Time Complexity

Insert: $O(\log N)$

Delete: $O(\log N)$

contains: $O(\log N)$

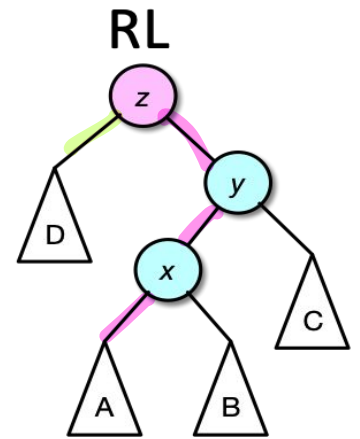

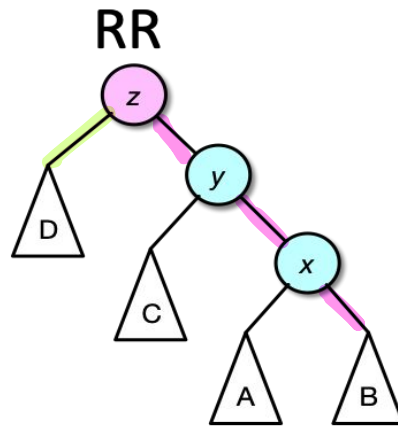

get root: $O(1)$

Individual rotation: $O(1)$ → But, inserting/deleting is $O(\log N)$ b/c of recursion

Very efficient!!

↳ Most efficient tree # ← covered in this class

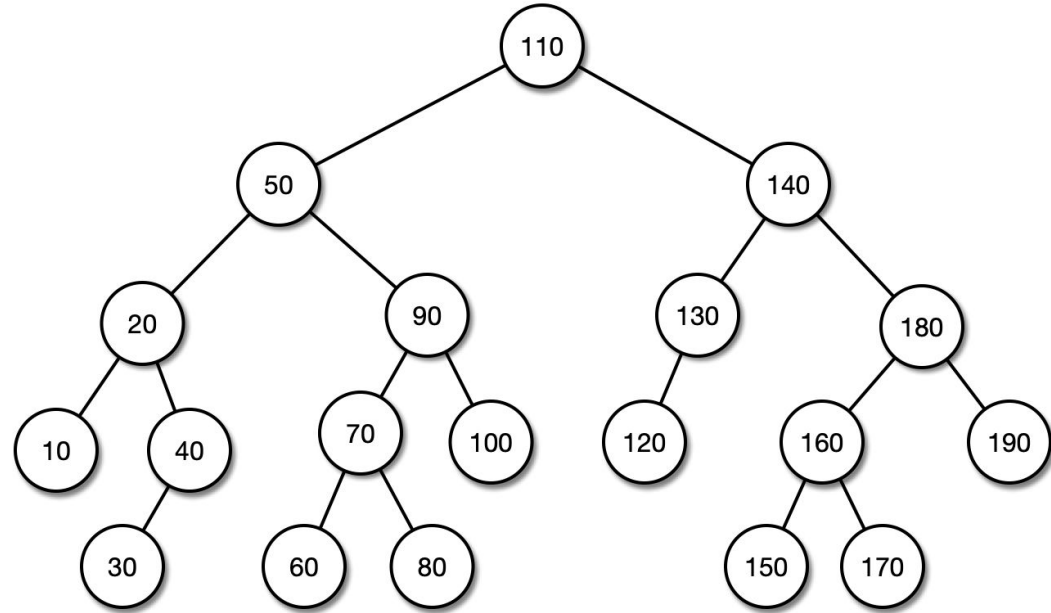

Rotations

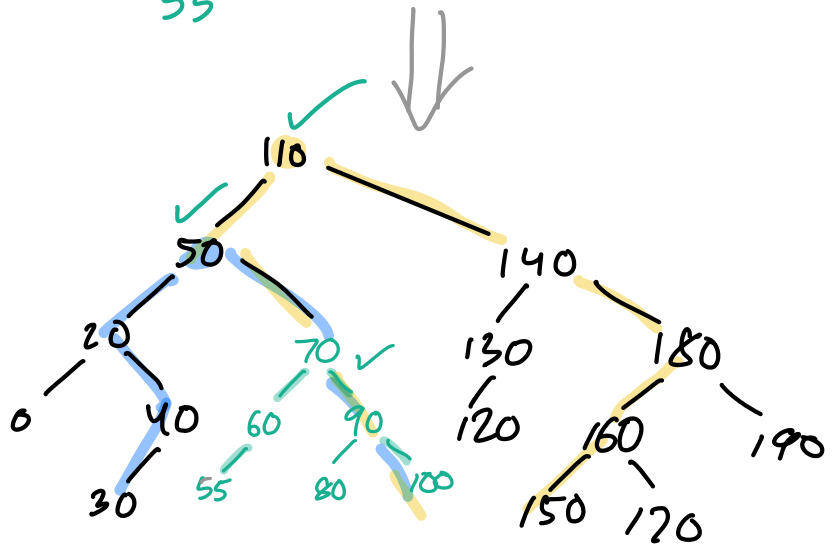

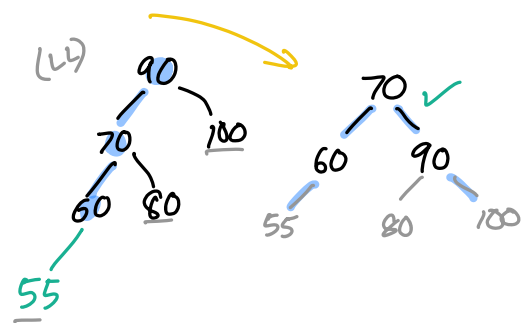

Examples

Add 55

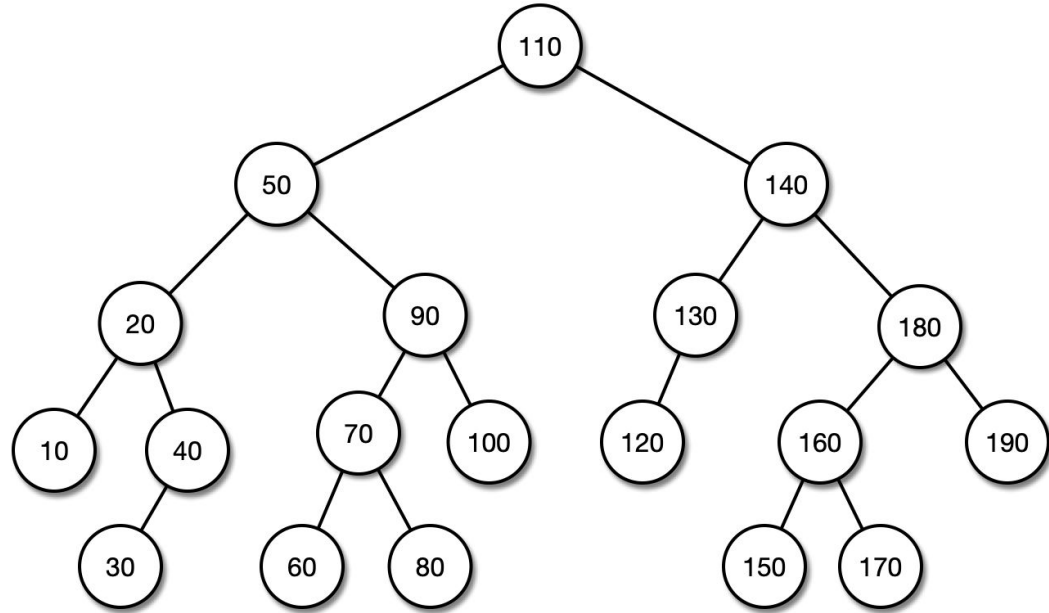

Insert 55

Correct

Examples

Remove 110

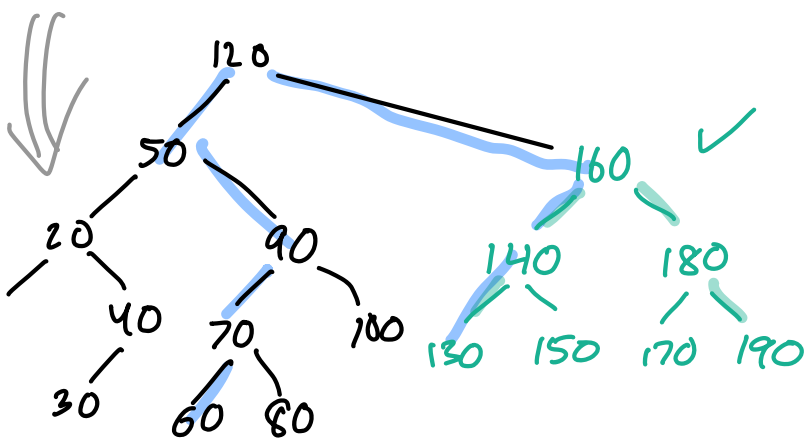

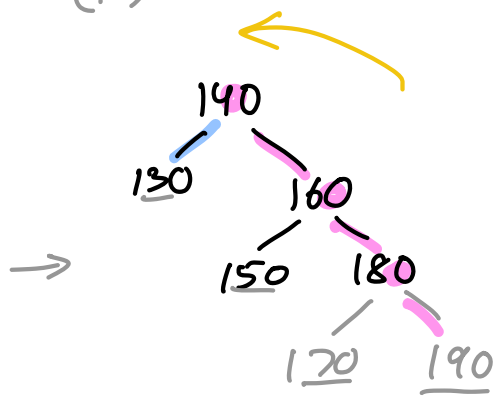

Remove 110

①

(RL)

(RR)

Correct

Examples

Remove 40
